STAMP DUTIES, Page 6.

NEW YORK, Nov. 24, 1869.

Notwithstanding a continued and increasing drain of currency to the South and West from this business centre, borrowers find no difficulty in obtaining call loans on stock collaterals at 6@7 per cent. Time loans are harder and, outside of banks, discounts are quoted at 9@12 per cent per annum, for prime commercial notes, 10@15 for good, and 18@24 for inferior paper. Though our money lenders, who until within a few days but reluctantly "discounted" at even higher rates, begin to manifest a better feeling, we hail as a move, which will ultimately lead to the proper course lying between the two extremes, viz.: the exclusion of loans on "stock-bubbles," the reported raising by some German capitalists of ten to twenty millions for a bank especially to be devoted to discounting commercial paper to the exclusion of loans on stock collaterals.

Gold declined 5 per cent during the month, (since October 25th), selling at the time of our writing at 25.

Foreign Exchange declined since our last weekly report, and is, to-day, weak, on the basis of sterling: commercial 60 days, 108½@108¾; bankers', 108¾@108¾; short sight bills, 109¾@109½.

For to-day's quotations in the various branches of the New York Stock Exchange, see page 27.

## Resumption of Specie Payment.

This having of late become the leading topic in financial circles, the publication of a letter from Attorney-General HOAR, touching this question, has attracted considerable attention. He says: "I am one of those, who believe, that it was the interest as well as the duty of the nation to return at once to the true and solid standard of value as soon as active hostilities ceased; that we should have treated the currency as we did our armies—regarding the volunteers and greenbacks alike as necessities of war, to be dispensed with as fast as possible on the return of peace. I think we made a great mistake in not doing so; that the shortest method was the safest and best." With due deference to an "opinion" coming from so distinguished an authority, we answer: "*Duo si faciunt idem, non est idem.*" True, volunteers and greenbacks, both helped to suppress the rebellion. But the former having "volunteered" to serve as "armed citizens" for a certain patriotic object, could, that object attained, at once be "disarmed" and made "citizens" again, without injury to the public welfare. Per contra: greenbacks, i. e. intrinsically worthless rags, were "forcibly" mixed with the life-blood circulating in all the channels of our financial body, making the latter plethoric, i. e., producing a new disease. This was done from the same necessity which will sometimes cause an efficient physician wishing to save the life of his patient, to introduce artificially a new disease into his body, which he is sure to control and remove in "due time." We opine, no wise financial doctor could have ventured "as soon as hostilities ceased, to return at once to the true and solid standard of value." It surely was necessary to let the sufferer recuperate some strength by leaving him alone for a time, after the successful removal of the prime evil, before trying to remove the secondary disease. Besides, though in war times necessity will excuse, in peace no good will ever come from "forced measures." President Grant, we think, has touched the key note, which will introduce our financial soundness and prosperity, in laying down and, so far, carrying out his programme of increasing the revenues by an efficient and faithful collection of taxes, reducing the expenditures by strictest economy, restoring the national credit by evincing our determination to deal fairly by our creditors. If Congress would also do its duty; for instance: check that "gambling with loaded dice" in our "exchanges," which, beside ruining those dupes who allow themselves to be "roped in," diverts hundreds of millions of our floating capital from its legitimate channels of employment and compels our farmers, manufacturers and merchants to pay ruinous rates of interest for loans,—then "the only way to reach the object" of specie payments, viz., "by a steady and persistent contraction of the currency," will not be a "painful process, whenever it comes," nor, in fact, have much longer to be delayed. And, ultimately, our credit being fully restored by the *de facto* resumption of specie payments, little difficulty will be found in "funding the public debt," and making less burdensome by bringing our oppressive tax system into the narrowest possible compass.

We are pleased to call the attention of Banks and Bankers to the card of Messrs. GREENEDAU, BROS. & Co., on the last page of the Reporter. It will be seen that they offer facilities to country bankers in the sale of Exchange on Europe. The house enjoys the highest reputation for integrity and reliability.

#### New German Bank.

Several German bankers and merchants of this city intend to establish a new bank, the principal object of which shall be the discounting of commercial paper, and on Monday last a large and influential meeting of those interested convened at the Merchants' Exchange-rooms, No. 50 Pine-street, on the requisition of several who had already contributed toward founding a capital. Over a million and a-half of dollars have already been subscribed by some sixty firms in the city. Eugene Ballin, banker, of Exchange Place, was called to the chair, and Frederick Kuhner, banker and commission merchant, was appointed Secretary. Mr. Tobias, of the firm of Tobias & Windmuller; Mr. Oelberman, of the firm of Noell & Oelberman; Mr. Rumpff, of the firm of Rumpff & Lutz; and Mr. Meyer, proprietor of the Handel's Zeitung, took a prominent part in the discussion, and argued there was as much necessity for such an institution in New York as in the cities of Hamburg, London, or Frankfurt. The contemplated enterprise met the approval of the entire meeting, and a committee of five was appointed to take preliminary measures. The names of the gentlemen on this committee are: Messrs. Gerhard Jansser, Frederick Kuhner, — Oelberman, Louis Grossman, M. Meyer. The chairman was added to the committee. The bank will be started with a capital of from \$10,000,000 to \$20,000,000, under the laws of the State of New York. Its principal function will be to discount commercial paper, but it will also transact a general banking business. It will be a special point with it never to loan any money on speculative paper.

We are informed that a new banking establishment will go into operation at Vicksburg, Miss., about the first of January next, under the name of MISSISSIPPI VALLEY BANK. (See card on page 18.) The enterprise is started by a company of wealthy citizens of Vicksburg, among whom are the well known names of Jno. A. Klein, D. W. Flowerree, C. C. Flowerree, and Geo. M. Klein. The capital of the bank is fixed for the present at \$150,000, to be increased as the demands of custom require. The following are the officers designated for the institution: President, Jno. A. Klein; Vice President, C. C. Flowerree; Cashier, Geo. M. Klein. The Messrs. Klein have had a long experience in the business, and all the parties interested are known to be men of means, influence and sterling integrity.

#### Bold Robbery in Boston. A National Bank entered on Sunday and \$300,000 to \$500,000 stolen.

On Monday morning last the officials of the Boylston Bank, Boston, on opening the outer safe at the usual hour, were astonished to find a hole in the rear of the safe large enough for a man to crawl through easily. The shelves in the safe, which contained 25 to 30 tin boxes, deposited there for safe keeping at the owner's risk, were missed, and on looking through the hole their contents were seen scattered promiscuously over the floor of a room in the adjoining building.

**ARREST OF COUNTERFEITERS.**—About one o'clock on the morning of the 17th inst., the authorities of Paterson, N. J., succeeded in arresting two men giving their names as Thomas McGurn and James Mulligan, who spent the preceding day in passing counterfeit two dollar bills on the St. Nicholas National Bank of New York. Although found to be poorly executed when closely examined, the counterfeits are calculated to deceive on a casual inspection. The two men mentioned have been identified by about twenty of their victims. They claim to be workmen on the Morris and Essex Railroad extension, one of them saying that the bills were given him by the foreman, in payment of wages, and the other that a man gave them to them in change. Their stories, however, were very conflicting and scarcely twice alike, as they subsequently acknowledged they had come from New York to have a little sport, but pleaded ignorance as to the money being counterfeit. There were none of the bad bills found in their possession, but the evidence against them being strong enough to hang a dozen men in Jersey they were duly committed to answer.

The two oldest bank officers in the United States are Eliphalet Williams, President of the Northampton National Bank, who is in his 90th year, and Statham Williams, President of the Utica (N. Y.) Savings Bank, who is in his 97th year.

The new \$5 legal-tender notes, it is expected, will be ready for issue early next week. The new \$50 notes will be ready about the first of December, and the remainder of the series—\$20, \$100, \$500, and \$1,000 notes—will be ready about the 15th of December.

The following **PRIVATE BANKER'S CARDS** have been inserted in the Reporter since Nov. 1st, and will be found under their respective States:

BRIGGS & PALMER, Clyde, N. Y.  
ZAMISER & HEFLING, Mercer, Pa.

**THE COUNTERFEIT REVENUE STAMPS.**—The Internal Revenue Bureau has definite information to the effect that only one thousand sheets of the counterfeit sixty pound tobacco were issued altogether. Five hundred of these have been traced to different localities and seized by the government officials. The amount still out represent about \$57,000, but it is thought they will be captured eventually. The internal revenue officials say it is the best counterfeit stamp ever executed. It is believed that all the plates, dies and other implements used in manufacturing the stamp have been secured by the detectives, so that the bogus stamp cannot be multiplied beyond the three thousand or so that are still afloat.

#### Counterfeit Tobacco Stamps.

The points of difference between the counterfeit and the genuine stamp are so marked as to be easily detected by the glass. They are as follows:

**FIRST:** The imprint in the counterfeit is badly engraved, and a trifle larger than the genuine. The words "Continental Bank Note Co., New York," in the genuine are small, distinct, and not connected, each letter standing separate, while in the counterfeit the letters are heavier, and more crowded, larger, and closer together, and in the word "Continental" the "P" joins the "n," making the "P" and "n" look like an "in," with a period at the end of the imprint in the counterfeit, which is omitted in the genuine.

**SECOND:** In the sky of the counterfeit, over the mane of the horse, will be observed four small dots; in the genuine the sky is made of straight lines.

**THIRD:** The ornamentations resembling small stars on each side of the vignette in the latter work of the counterfeit look imperfect and blurred, while in the genuine they appear bright.

**FOURTH:** Over the white faced figure "6" on the left side of the stamp in the genuine is a small black figure, a part of the latter work pattern which is wanting in the counterfeit, and the imitation latter work of the counterfeit has a muddy appearance, while in the genuine the patterns are clear and distinct.

Treasurer Spinner has issued the following circular to the National Banks:

TREASURY DEPARTMENT,  
TREASURER'S OFFICE,  
WASHINGTON, Oct. 26, 1899.

The following regulations are adopted for the distribution of the new issue of legal-tender notes, known as "United States Notes, issue of 1899."

I. Assistant Treasurers of the United States and designated depositaries of the United States, other than National Banks, will be furnished with the new notes, whenever it shall appear that they are in need of such funds, and there shall be a sufficient supply (or the purpose on hand at this office.

They will, however, continue to pay out such notes of the former issue, which are fit for circulation, as they may have on hand or shall receive, returning only such as have been called in by previous circulars from this office, and such as it is desirable to exchange for other denominations. They will use the new notes only in their regular payments, and in redemption of such currency as they are required by existing regulations to redeem, and will not exchange them with banks or others for other notes which they are not required to redeem, but will refer all parties desirous of making such exchanges to the treasurer of the United States. They may, however, receive deposits of United States notes of the former issue on account of new notes to be ordered from this office, and issue certificates of deposit therefor, as stated below, crediting the amounts so deposited to the Treasurer's general account as transfer of funds.

II. For the present, notes of the new issue will be furnished by the Treasurer to all other applicants only on the following terms, viz.:

1. In exchange for \$10, \$50, "convertible issue," defaced and mutilated United States of the former issue, defaced and mutilated fractional currency, and circulating notes of the national banks mentioned in circular No. 7, 1893, from this office, as having failed or being in voluntary liquidation, forwarded to the Treasurer in accordance with existing regulations for redemption.

[In this case the new notes will be forwarded by express under the Government contract, at the expense of the Department, provided that the amount is \$500 or more, but does not exceed \$1,000, or an even multiple thereof, by less than \$500, to any point within the territory of Adams' Express Company, or of any express company which has formed connections therewith. This restriction is made necessary by the terms of the Government contract with Adams' Express Company.

2. Upon the receipt by the Treasurer of original certificates of deposit of other United States notes with Assistant Treasurers of the United States and designated depositaries of the United States, other than national banks. The fact that the deposits consist of United States notes must be expressly stated in the certificates.

In this case the new notes will be forwarded under the contract at Government rates, at the expense of the consignees, the amount of the charges being duly deducted from the remittance at this office.

Precedence will be given to orders based on currency remitted for redemption, whenever the Treasurer shall be unable to fill all orders which he shall have on hand.

III. In filling orders for the new notes, the Treasurer will be guided by a regard for their equitable distribution among the business communities of the country, and until the supply shall permit the fulfillment of all orders, may be compelled to fill large orders in part only. For convenience in this respect it is suggested, that, for the present, orders be made in small sums, and that whenever a bank or other party holds a few thousand dollars which it is proposed to deposit on account of an order for new notes, the deposit be made and the certificate forwarded without waiting for a larger accumulation.

F. E. SPINNER, TREASURER U. S.

**THE NEW TREASURY NOTES.**—The following is a description of the new one and two dollar United States Treasury notes, to be put in circulation about the 1st of September:

The new one dollar notes will have a vignette of Washington and a representation of the discovery of America by Columbus on the face, instead of the vignette of Chief Justice Chase, as on those now in use.

The new two dollar notes will have a vignette of Jefferson and a view of the Capital, instead of the vignette of Franklin on the present ones. The plates for these notes have already been engraved at the Treasury Department.

The backs of the "ones" will be printed by the National Bank Note Company of New York, and those of the "twos" by the American Company of the same city.

The designs for the new fives, tens, twenties and other denominations, have not yet been determined upon.

The receipts from Customs and Internal Revenue so far, during the present month, have been very large, and should they continue in the same ratio during the remainder of the month, the December statement of the Public Debt will show a further reduction of \$10,000,000. The amount of coin in the Treasury on the 18th inst., was \$108,000,000.

## NEW COUNTERFEITS.

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

**FIRST NAT. BANK, Manitowoc, Wis.**

10s raised from 1s. On right end die X is inserted instead of I; on the borders of the bill are figures 10 instead of 1.

**NATIONAL Bk OF COMMERCE, N. Y.**

20s imitation. Signatures engraved. In the Cashiers name, the I in VAIL looks more like an E, there being no dot over the I, as in genuine. General appearance good. The child on the lap of the Indian girl—on the back of the note—is very indistinct.

**THIRD NAT. BANK, Chicago, Ills.**

10s raised from 1s. On right end die X is inserted instead of I; on the border of the bill are figures 10 instead of 1.

**5s, GREENBACKS.**

The green ornamental engraving, lengthwise of the bill, in the counterfeit, is of a paler color than in the genuine, and has a brighter look than the dark green of the original. Seen under the microscope the engraving is coarse, but to the naked eye the bills have a very good appearance.

**10s GREENBACKS.**

The engraving is coarse. The vignette of Lincoln is a very indifferent engraving, and the scroll work around the medallion is poorly imitated. Letter C, twenty-third series.

**10s, GREENBACKS.**

An excellent imitation of the genuine. Note the following discrepancies. In the genuine, the shading around the 10 in the medallion appears like a fine net work, and runs close up to the figures. In the counterfeit, the shading is "plecked up," and becomes coarser as it reaches the figures, forming a light streak or circular haze. Another test is on the figure 10 within the light circle. The genuine has three and one-third dots on the left on the fig. 10, while the counterfeit has but three. Thus:

GENUINE. COUNTERFEIT.

10 10

But the surest test is under the left wing of the eagle. The genuine has FOUR DISTINCT ROWS OF FEATHERS under the wing, while in the counterfeit the rows of feathers are undefined. One issue of this counterfeit is of the new series, letter D, No. 53; another is letter D, with a small 5 under the D, No. 23. These counterfeits are the best we have ever seen.

Newer issues have appeared lately, in which the defects above referred to have been corrected. We would advise our patrons to refuse all tens, greenbacks, unless they know the parties from whom they receive them.

**20s, GREENBACKS.**

A dangerous counterfeit. Green ink a good color, but the paper too yellow. Principal defect is the die. No clear and distinct lines around the 20. Looks more like a collection of several spots. Female well done, but the face rather coarser than the genuine.

**50s, GREENBACKS.**

Imitation. Observe the figures 50 on back of the bill around the margin. The 5 in the imitation runs into the 0 on the lower left corner, and reads 550 instead of 50. The buttons on Hamilton's vest which are very distinct in genuine are scarcely discernable in the counterfeit. Genuine has FIVE while in the counterfeit you can hardly see FOUR. The note is dated March 10th, 1898. We would advise our patrons to scrutinize carefully all \$50 Treasury Notes, unless they know the parties from whom they receive them.

**AUBURN CITY NAT. BANK, N. Y.**

50s, imitation, are in circulation.

**JEWETT CITY NAT. BANK, Conn.**

2s and 5s, imitation, are in circulation.

**National Bank of R. I., Newport, R. I.**

2s, imitation. Likely to deceive.

## FRAUDULENT BANKS.

**Lynn Park National Bank, N. Y. (No such bank.)**

2s. Very well done.

**Nat. Union Bank of Linderpark, N. Y.**

2s, (NO SUCH BANK) well calculated to deceive.

**National Bank of Idaho Territory.**

10s. Well done.

**National Bank of the State "IN" N. Y.**

10s. Coarsely done.

**Mechanics' National Bank of Janesville, N. Y.—(NO SUCH BANK.)**

10s. A very good looking bill—look out for them.

U. S. Pacific Railroad Currency 6s—

Dated Jan. 16th, 1865, and variously thereafter.  
These bonds are issued by the government  
under Acts of July 1st, 1862, and July 2d, 1864,  
to Companies receiving their charter from  
Congress, which gives them the right to con-  
struct railroads to and from the Pacific Coast,  
and on the completion of each twenty miles of  
track to receive at the rate of \$10,000 to \$32,000  
or \$45,000 per mile, according to the difficulty  
of constructing the same. They are payable  
thirty years from date of issue, and are regis-  
tered in bonds of \$1,000, \$5,000, and \$10,000.  
Amount issued up to Sept., '69.....\$60,860,320

A counterfeit coupon for three dollars, pur-  
porting to belong to a one hundred dollar 5.20  
bond, has been received at the Treasury De-  
partment, which had been sent from Germany  
to New York, cashed here and forwarded to  
Washington for collection. The counterfeit  
is a lithograph, and when compared with the  
genuine coupon it could be easily detected  
by the most inexperienced persons; as the  
execution is rough and hasty, the paper  
thin and common, and a trifle shorter than the  
genuine coupon. It assumes to belong to the  
5.20s of 1862, fourth series, and bore the stamp  
of some German house on the back, but too  
indistinctly to be deciphered fully.

## COUNTERFEIT FRACTIONAL CURRENCY. Old Issue.

50s, imit., the portraits of Washington differs  
one from another; in the genuine they are all  
alike; the green color looks light and pale.

25s, imit., well executed. Look out.

### 2d Issue.

10s, imitation. All gen. on the top has the  
word "Depositories," the imitation reads "Dep-  
ositories."

50s, imit., have a pale slate color. The small  
barrels on lower right corner are very indistinct.  
The gen. have six barrels perfectly clear and plain  
Three on lower row, two on next, and one on top.  
The counterfeit barrels are black, and gen. are  
white.

50s raised from 5s.

### 3d Issue.

50c. imit.; two kinds of the new long 50 cent  
currency. The imitation of one kind has DISIG-  
NATED on upper right corner instead of DESIG-  
NATED. The second kind has designated cor-  
rectly spelt, but on the little American Shield,  
under the Eagle, there is a black line drawn across  
the upright bars of the Shield. Not so on the  
genuine.

25s, imit., are very pale and coarse. The letter  
O in cents on left end is smaller than the other  
letters, and too far off.

### New Issue.

25, imitation. Above the words "Treasury  
Department," on the bottom of the bill in the  
genuine there is a fine dotted line—the counter-  
feits have a straight line.

Notice the shading of the "25" on the back of the  
note. The genuine is dark, while the counterfeit is  
very pale, and very little darker than the other green.  
The word "of" on the face of the genuine appears  
thus—"of"—on the counterfeit "of."

25s, imit., well executed, but may be detected  
by the absence of a period (.) after the word  
Treasurer under Spinner's name; the work is  
better than any we have previously seen and liable  
to deceive unless carefully examined.

25s, well executed; head of Obittenden; where  
it reads "Furnished only by the Assistant Treas-  
urers" the Assistant is spelt "Assistata." In the  
genuine the shading of the letter "E" in "Five"  
is unbroken, while the counterfeit has a little  
notch in it.

50s, well executed. The engraving on the face  
of the note is excellent. The adverse is slightly  
blurred. The notes are an eighth of an inch nar-  
rower than the genuine.

50s, the "y" in "Colby's" name crosses a line  
of the coat in the genuine, but not in the counter-  
feit.

50s, the line of stars on counterfeit between the  
figures "50" at the top and bottom of the back of  
the note have white centres, while the entire  
stars on genuine are in green. The reading in  
black on the genuine note clear and distinct,  
while on the counterfeit the bronze is printed on  
the black, the words "FIFTY CENTS" being almost  
obliterated.

50s, well done. The last "e" in the signature  
of F. E. Spinner is omitted in some, and the (.)  
after print. on one end, and the d. after March 80.

50s. New and dangerous counterfeits of the  
last issue of the fifty cent fractional currency  
notes, which bear upon their face the head of  
Treasurer Spinner, have been detected by the  
Treasury Department. It can be detected by the  
absence of a period (.) after the word print on the  
right end, and also under the letter "d" in  
"March 8d," on the left end. The paper is  
thicker than that of the genuine notes, and the  
general appearance is calculated to deceive unless  
closely inspected.

### COUNTERFEIT 7.30 BONDS.

The seal is slightly larger than the genuine;  
the red ink with which it is stamped is a shade  
lighter, and the points projecting from the seal  
are blurred and a little longer than the genu-  
ine. The imprint at the bottom of the face of  
the bond is set different in the margin, there  
being more space given it than in the genuine.  
The borders of the coupon which are attached  
to the counterfeit bonds are larger, while the red  
figures are finer than in the genuine. The bor-  
ders of the ornamental lathic work are blurred  
and somewhat indifferently executed. The  
figures denoting the bond are slightly uneven,  
while the blue ink in which they are printed  
is a duller blue and lacks the metallic glossy  
appearance of the genuine.

20s, in center, a female erect, with sword and shield. between figure 20 and two green dies; figure 20 each side—TWENTY DOLLARS across each end in green die work—fancy green back.

50s left centre, oval portrait of Hamilton; Treasury die in pink on right of die; 50 on die on each end of note.

100s, upper left centre, large spread eagle sitting on a rock; Treasurer's die in pink and 100 in green die on right of vig.—right upper corner 100 on a black die—lower left corner 100 on a black die.

500s, in centre, portrait of Albert Gallatin encircled in a green die—right end, 500; FIVE HUNDRED DOLLARS below—left end same as right.

1000s, in centre, portrait of Robert Morris in green circle—right end M with 1000 across it; ONE THOUSAND DOLLARS on a green die below—left end, same as right.

## COUNTERFEIT GREENBACKS.

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a black STRAIGHT LINE under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 30th June, 1867," under the words N. York are not on the counterfeit bill. All the counterfeits are letter A, and are  $\frac{1}{4}$  inch shorter than the genuine.

On the new series of letter "A," around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only one. But this

may be a counterfeiter's dodge to have it described and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 8, and on left end series 90.

10s. Paper very light, and the green ink of a lighter shade. Dated March 10th, 1862.

10s alt'd from 1s, portrait of Chase on left.

10s imit. There are 16 small Xs on upper right margin, and only 15 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. and 8 on the genuine.

10s, imit., has 14 small x's on upper right margin—16 on left. The gen. has 15 x's each side of engravers name. Portrait of Pres. Lincoln is very coarse and pale looking; imit. are dated Washington, March 10, 1862, letter O.

50s, very close imit. of gen., the engraving is good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter 'x' in the word 'The' is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2s, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Ingenious persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives experts.

50s, imit. observe the figures 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word 'FIFTY' around the above 50 can scarcely be read. Words 'LEGAL TENDER' is very much blurred. Letter C dated March 8, '63. On the left lower corner the No. 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of its true character.

100s, imit. the red figures are much larger than the figures of any Treasury Notes, the wings of the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the light end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

## COUNTERFEIT COUPONS.

The following are the words on the coupons: "Acts of July 17 and August 6, 1861. The United States of America will pay to bearer fifteen dollars for six months' interest due 1st January, 1867, upon bond No. 785, for \$500. L. E. Chittenden, Register United States Treasury."

**FIVE CENT COIN COUNTERFEITS**  
Are in circulation. They may be distinguished from the genuine by the softness of the metal.
